## About Me

Hey, This is Bareera Bilal, currently pursuing a Bachelor's degree in Computer Application along with a Diploma in Software Engineering from Srinagar, Jammu and Kashmir. With a strong academic foundation and a passion for technology, I thrive on turning ideas into impactful digital solutions.

I have hands-on experience in C#, JavaScript, HTML, CSS, SQL, and ASP.NET Core, React, Redux, WebApi which allows me to develop responsive, scalable, and user-friendly web applications. My focus lies in combining clean, efficient logic with modern, sleek design to deliver meaningful user experiences.

## WORK EXPERIENCE

APRIL 2024 - PRESENT

### Independent Website Seller

- Collaborated with a dynamic team to develop and maintain software solutions.
- Developed and launched websites for diverse clients, ensuring responsive design, optimized performance, and user-friendly interfaces.
- Built strong client relationships through clear communication, timely delivery, and personalized solutions.

## SOFT SKILLS

- Problem-solving & critical thinking.
  - Adaptability in tech-related tasks.
  - Consistency in remote work delivery.
  - Open to a variety of tech roles.
  - Multilingual translation and content adaptation.
- 
- I assure you of my best efforts to complete tasks within a feasible timeframe, maintaining both quality and reliability.
